

Omar Tarboush

Flutter Mobile & Web Developer | AI Graduate

Damascus, Syria | +963 941 717 409 | omartarboush191@gmail.com | LinkedIn: [Omar Tarboush](#) | Portfolio: [omartarboush/portfolio](#)

PROFESSIONAL SUMMARY

Flutter developer and AI graduate with 4+ years of production mobile app experience and 12+ applications across the UAE, Saudi Arabia, and Syria. Strong in Flutter, Firebase, GetX, Riverpod, BLoC, REST/GraphQL APIs, Google Maps, deep links, notifications, secure access, and Patrol automated app testing. Delivered and maintained published apps across communication, food, beauty, task management, accounting, and location-based products, plus bilingual web delivery with Next.js.

EDUCATION & LANGUAGES

Education: BSc Information Technology, AI Major - Arab International University

Languages: Arabic native | English good

CORE SKILLS

Mobile: Flutter, Dart, GetX, Riverpod, BLoC, Patrol tests, Mockito, widget and integration testing

Web: Next.js, TypeScript, React, Prisma, Tailwind CSS, next-intl (i18n), SEO

Backend/Data: Firebase Auth, Firestore, Messaging, Cloud Functions, SQL, stored procedures, views

Integrations: REST APIs, GraphQL APIs, Google Maps, deep linking, push notifications, in-app purchases

Security/Delivery: Patrol automated app testing, PIN access, role-based access, data encryption, cloud backup, caching, Git, GitLab, GitHub

WORK EXPERIENCE

Full-Time Flutter Developer | We Got Nerds | Dubai, United Arab Emirates

Oct 2025 - Present

- Managed project timelines, delegated development tasks, and coordinated cross-functional delivery.
- Implemented Riverpod state management and optimized data queries for stronger app performance.
- Integrated Firebase Auth, Firestore, Analytics, third-party REST APIs, Patrol automated app tests, widget tests, and integration tests.

Freelance Web Developer | Freelance | Remote

2025 - Present

- Designed and delivered a bilingual Arabic/English photographer website (Ghassan Ahmad) with seasonal offers, work galleries, WhatsApp booking, and localized SEO.
- Built the full web stack with Next.js, TypeScript, and Prisma, including a database-backed admin dashboard with image uploads and per-locales SEO control.

Full-Time Flutter Developer | ANS Soft | Abu Dhabi, United Arab Emirates

Aug 2023 - Oct 2025

- Delivered and supported production mobile applications including Aklat24 and Mapy.
- Led special projects, planned schedules, supervised delivery work, and maintained large-scale legacy codebases.
- Built GetX architectures, SQL views, Firebase Messaging, deep links, GraphQL, REST APIs, and Patrol end-to-end automation tests.

Full-Time Flutter Developer / Programming Instructor | Seba School | Damascus, Syria

Sep 2023 - Sep 2024

- Taught programming fundamentals with a focus on Python and practical problem solving.
- Organized student competitions and learning events to encourage hands-on practice.

Full-Time Flutter Developer | Goma Plus | Saudi Arabia

May 2023 - Aug 2023

- Developed mobile apps using GetX and Firebase notifications.
- Created stored procedures, database views, complex queries, and REST API integrations.
